Stainless Steel - Planter This planter is a powder-coated planter made of high-quality stainless steel. The dimensions are a square outer contour of 900 x 990 mm with a height of 550 mm. The planter has no bottom. For stabilization, two crossing cross braces are attached just above the bottom edge. The top and bottom edges are beveled - all corners and edges are sanded clean. The planter is delivered in one piece. Foundation: provided by the customer To protect the roots from frost and heat damage, we recommend lining the walls with at least 20 mm insulation made of PUR insulation protection panels.
