1.999,00 € (Incl. VAT, ad. delivery)

Dimension: B=15,0, H=205,0, T=36,0 cm. weight: 15.00 kg

COLOR CHART

- stainless steel look

The shower can be ordered entirely in stainless steel or a combination of stainless steel and brass.

The basic module contains the shower elbow, a chrome-plated shower plate Ø 20 cm, the water dispenser, the valve for the cold water supply with a corresponding rotary handle, as well as an additional tap and a connection set.

The other connections on the water dispenser are provided with blind plugs. If further taps are required, they can be installed here. If this is the case, the faucets must be ordered separately, as only one faucet is included in the standard scope of delivery.

We also recommend a base to securely mount the shower.

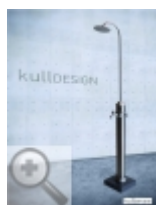

You will also find many other shower plates in different sizes, shapes and colors on our website.

Further special adaptations are possible on request.

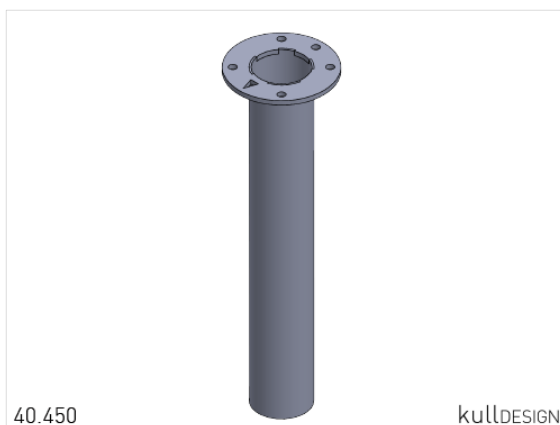

-Please note that the position of the tap in the picture is incorrect.

The picture is only intended as a guide to the shape and color of the shower.

Therefore, please refer to the sketch for the position of the tap
