The basic module contains the shower bow, a chrome-plated effervescent plate of 20 cm, the double valve for the hot and cold water supply with appropriate rotary handles, as well as a connection for an additional faucet, the base plate and a connection set.

If no additional faucet is desired, the connection is provided with a blind plug to allow a later installation.

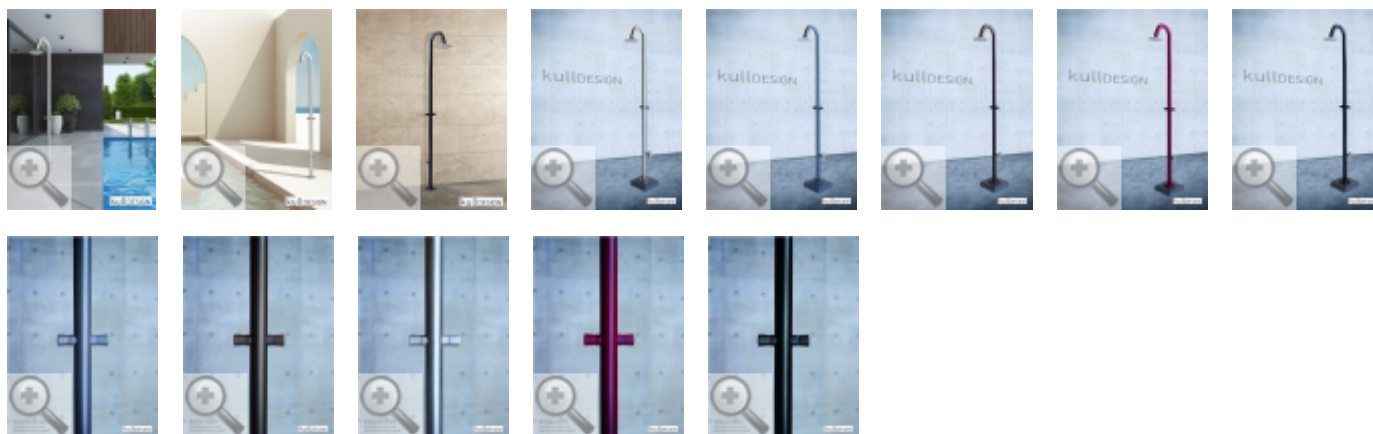

Please note that no faucet is included. This must be ordered as desired.

In addition, we recommend a plinth to securely mount the shower.

On our website you will also find many more effervescent plates in different sizes, shapes and colours.

Further special adjustments are possible on request.
