KULL Design Premium Garden Water Hoppy

Created for aesthetically-sophisticated Design of Water Points.

As Germany's leading Supplier of multi-award-winning and patented Garden Fittings, we rely primarily on timelessly Elegant Forms with innovative Technology in design and Technology.

- · Brass massively
- Return control Installed at the Hahnend (DVGW)
- Top flat-tight with rising Spindle for easy Maintenance
- Any common hose clutch can be connected to the 3/4 "hose closure Adapter with Pipe Ventilator and Backflow Control.
- The connection thread is self-sealing!

Advantage of the patented Thread seal ring:

Installation without hemp or PTFE band

The KULL DESIGN components, equipped with PTFE thread density rings, are simply assembled and allow for repeat assembly and corrective rotation.

The sealing rings have an elastic magnification during application, thread and adjustment to the groove, which guarantees safe use.

These threaded seals have been the most well-known in the world for several years.
