Faucet 1/2 " including coupling piece and rosette

Coupling piece and knob in chrome

The design faucet combines design elegance with perfect craftsmanship. A real eye-catcher at every water point

The traditional design for this 1/2 "version is underlined by its attractive design. The half-inch external thread on the wall connector reliably connects this slightly longer tap with the associated outlet about 13 cm from the wall. This opens up options for the problem-free filling of watering cans or buckets. Optionally, the outlet can also be provided with a [2]. The two-winged tap on the top ensures reliable control of the water supply. The overall dimensions of this tap are: 140 mm x 53 mm x 160 mm (HxWxD). [1] Faucet from Kull (<https://www.kull-design.com/wasserhahn-edelstahl> "Faucet overview") [2] Coupling for hoses or a hose attachment (<https://www.kull-design.com/gartenschlauch-zubehoer> "Coupling garden hose")
